ORGANIC HOLISTIC RITUALS

DELUXE INDIAN HEAD MASSAGE

Indian Head Massage is based in Ayurvedic healing, releasing accumulated stress within the mind and body (shoulders, neck, head and face). A relaxing and effective treatment which helps tone muscles, relieve eyestrain, headaches, improve concentration and boosts your immune system. This deluxe treatment includes a mini organic facial to brighten and revive your skin. Upgrade and extend your head massage even further with the Organic Rose Hand Ritual.

DELUXE REFLEXOLOGY

The art of reflexology dates back to Ancient Egypt and is based on the principle of reflex zones in the feet which correspond to parts of the body, linked by energy pathways. By stimulating the energy pathways it awakens the body's own potential to heal both physically and emotionally, and inducing a sense of balance and harmony. This deluxe treatment includes an organic foot scrub and heated foot mask to revive your feet. Upgrade and extend your foot massage even further with the Amber Rose Hair Ritual.

DELUXE THAI FOOT MASSAGE

Thai Foot Massage was developed by Buddhist monks in Thailand as a healing modality 2500 years ago, working on Sen Lines from the Ayurvedic tradition. Working these Sen Lines on your feet and lower legs increases flexibility, relieves tension, boosts the immune system and balances the body's energy systems - similar to the practice of acupuncture, acupressure and shiatsu. This deluxe treatment includes an organic foot scrub and heated foot mask to revive your feet. Upgrade and extend your foot massage even further with the Organic Rose Hand Ritual.

ORGANIC SPA RITUALS

BACK RITUAL

Targeted back treatment - exfoliating and detoxifying treatment that begins with a dry body brushing, followed with body wash and body scrub to boost your skins health and circulation. Ideal ritual prior to a massage treatment.

AMBER ROSE HAIR RITUAL

Melt away stress and tension with this aromatherapy scalp massage and allow the restorative hair treatment to work its magic. The Tabitha James Kraan Organic Amber Rose Hair Oil is uplifting, nutrient-rich, and beautifully aromatic. A little pot of opulence; a big hug for your hair. Ideal ritual to upgrade a facial.

ROSE HAND RITUAL

This luxury beauty ritual begins with your hands submerged in a beautiful copper bowl amongst a soak of mineral crystals, fresh organic lime slices and organic rosebuds. A deep cleanse of the hands, a Rosehip scrub, and then your hands are massaged with a Rose Clay Mask, followed by cuticle oil, and concluding with a generous layer of luxurious Rose balm. Polish, nail and cuticle work is excluded from this treatment.

ORGANIC SPA RITUALS

CELLULITE RITUAL

Targeted treatment on the back of the thighs, bottom, hips, and lower back. A deeply detoxifying treatment that begins with a dry body brushing, followed with lemongrass body wash and body scrub to boost your circulation. The detoxing lemongrass oil and balm are then massaged in to continue working under the skin and on the skin's appearance. Ideal ritual prior to the Cellulite Massage.

BODY RITUAL

A complete mind and body delight that takes you on a journey of the senses: body brush, body scrub, body balm cocoon wrap, finishing with a scalp and face massage that will leave you feeling lifted and refreshed.
